

Accessibility Statement for Vigilshore

At Vigilshore, we are committed to ensuring that our services, dashboards, and resources are accessible to all individuals, regardless of their abilities. We strive to offer a seamless, user-friendly experience across all of our platforms, with accessibility at the core of our design and functionality.

Services and Information Accessibility

We are committed to providing all clients and the public with full access to our services and information. Our platforms are designed to be easy to navigate, ensuring that individuals with disabilities can use our services effectively and efficiently. We continually assess and update our content to ensure compliance with global accessibility standards.

Data Privacy and Security

We understand the importance of privacy and data security. Vigilshore upholds a strict data policy to protect your personal and professional information, ensuring that all our users can always trust in the safety and integrity of their data.

Client and Public Support

For clients and the public who experience any accessibility issues or have questions regarding our services, we are always ready to assist. Please reach out to us at Operations@Vigilshore.com for any inquiries or feedback regarding accessibility. Our team is dedicated to addressing your needs and ensuring your experience is as smooth as possible.

Commitment to Continuous Improvement

Vigilshore is continuously improving our platforms to enhance accessibility for all users. We value feedback and are committed to making ongoing updates to ensure that our services are inclusive, accessible, and easy to use.
